

38 Years of Product Innovation

Recognized Global Leader in Anti-Fog Coating Systems

Table of Contents

■ Company Overview

- History & Technology Profile
- Global Footprint
- Technology, Distribution & Support
- Quality, Safety, Environmental Policies
- Business Initiatives, Values, Conduct & Trends

• Markets Served

- Commercial & Industrial Anti-Fog Film
- Architectural & Building
- Automotive & Transit, Aviation & Aerospace
- Bathroom Mirrors & Shower Doors
- Commercial Freezer Display Cases
- Electronics, Marine & Watercraft
- Greenhouses & Conservatories
- Medical & Safety, Military & Security
- Specialty & Custom Applications
- Sunglass & Sports Eyewear

■ Products Overview

- Product Lines
- Features & Benefits
- Products, Substrate & Coating Options
- Anti-Fog, Hard Coat, Primer Film & Sheet, and Formable Product Suites
- UV-Cure Anti-fog Coatings

■ Summary

- Leveraged Technology Partnership
- Enhanced Product Performance
- Global Distribution & Support

Our Company

Established in 1986

38 YEARS OF PRODUCT INNOVATION

38 Years of Innovation

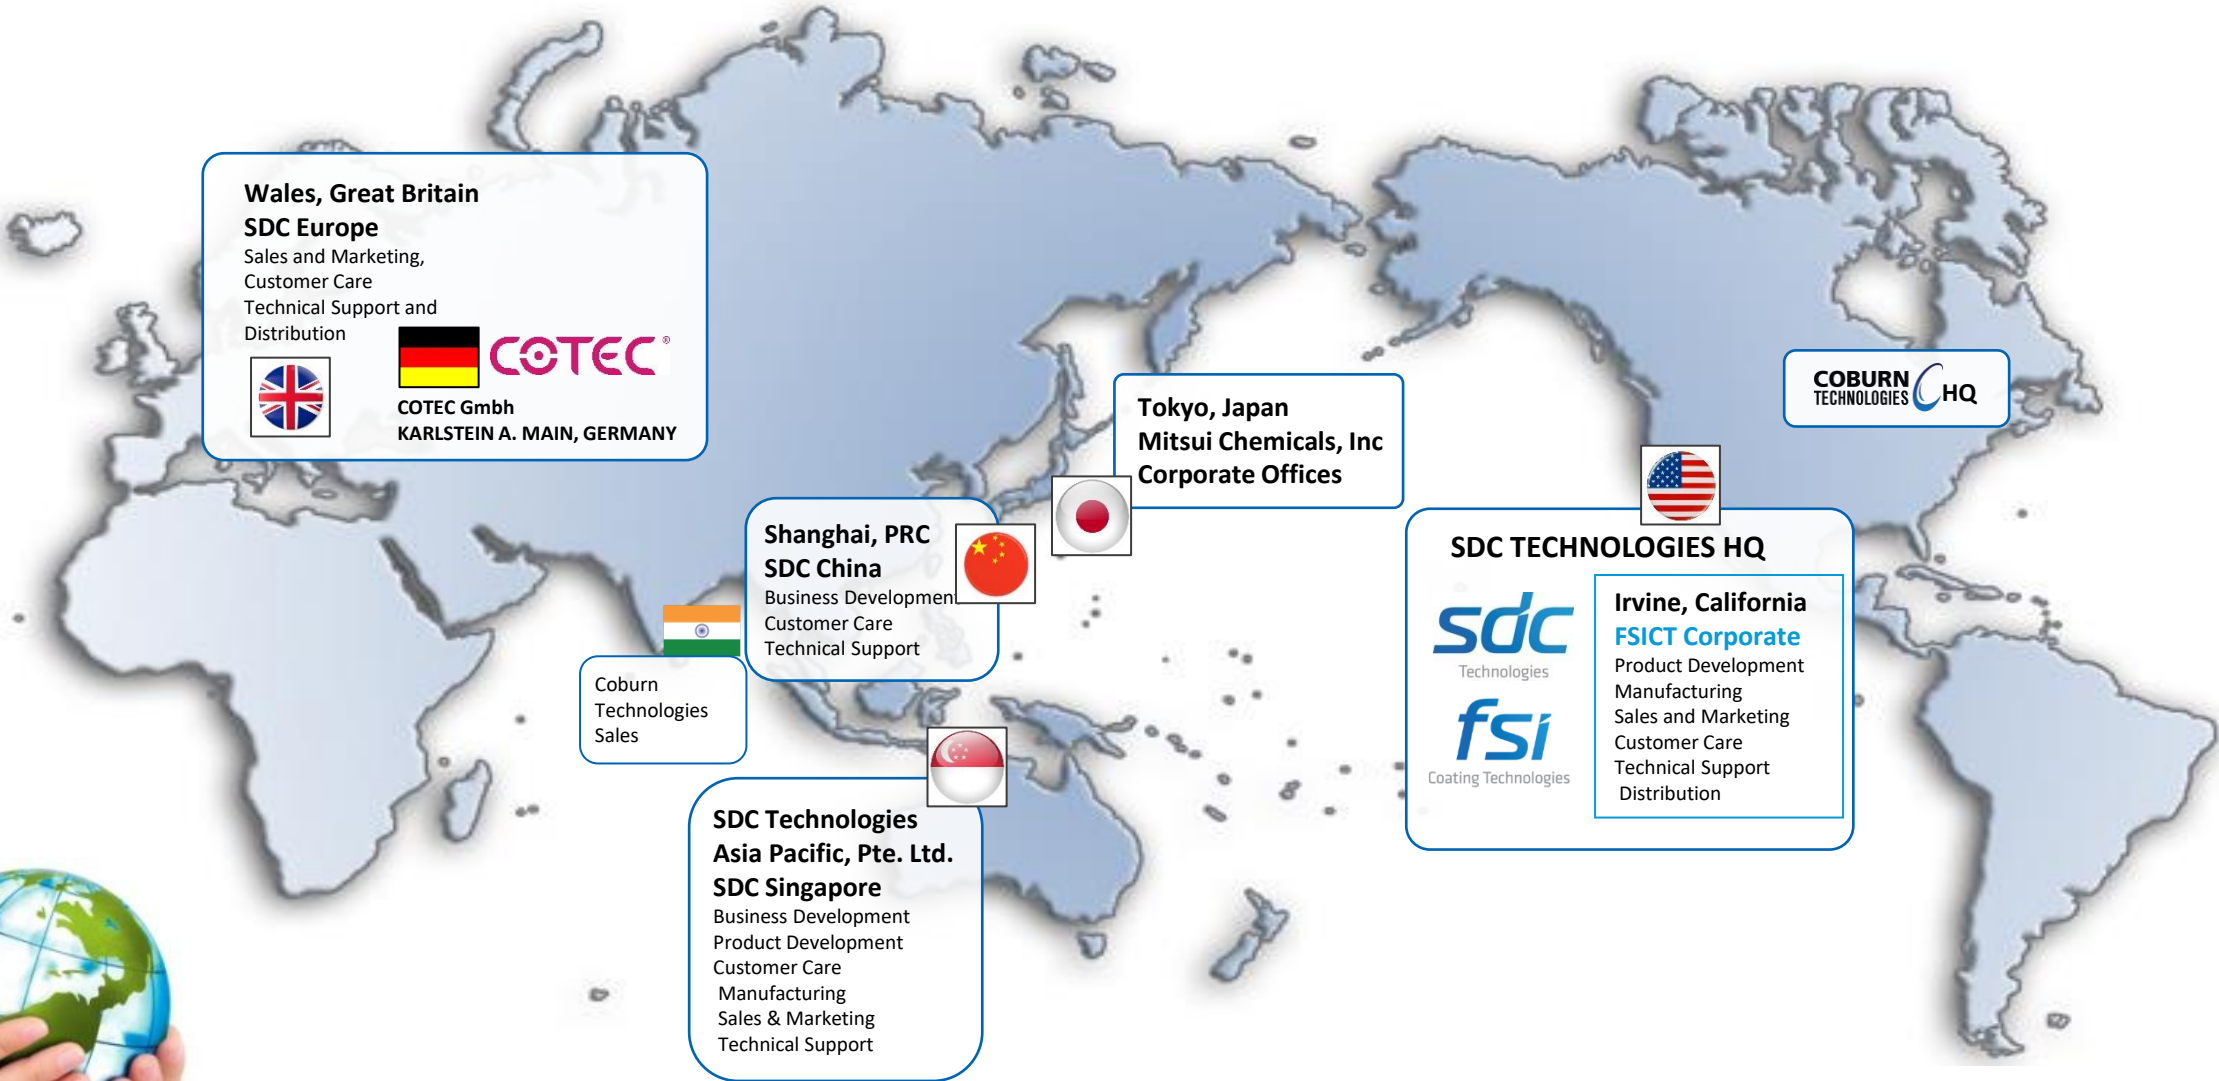

- 1986 Established as Film Specialties, Inc. to develop effective anti-fog and abrasion resistant coatings
- 2010 Acquired by SDC Technologies, Inc., (SDC) a subsidiary of Mitsui Chemicals, Inc.
- 2010 Renamed FSI Coating Technologies, Inc., rebranding of FSICT included new website at fsicti.com
- 2011 Expansion with West Coast California relocation
- 2012 Launched Visgard® Premium LFT-300 Film & Visgard Premium Plus Anti-fog coating
- 2013 Opening SDC Technologies Asia-Pacific Singapore office
- 2016 Launched Visgard Premium and Visgard Elite Anti-Fog coatings
- 2017 SDC completed acquisition and merger by integrating LTI Coating Technologies UV-Cure coatings and equipment into its business group
- 2020 SDC acquired COTEC® GmbH thin film & coatings technology
- 2021 Launched Visgard UV Anti-Fog coatings UV-Cure coatings and equipment
- 2022 SDC acquired Coburn Technologies, Inc., leader in ophthalmic equipment, consumables, and services in all phases of lens production.
- 2024 Launched Visgard Ultra PFAS-free anti-fog coating

Pioneering Anti-Fog Technology

- Global Leader in premium anti-fog and abrasion resistant coating systems and film
 - Leveraging the integration of nanotechnology with sol-gel chemistry
- Cutting-edge research and proprietary, patented technologies
 - Advancing the science of anti-fog condensation control
- Unique coating solutions for a variety of substrates
- Support for multiple vertical markets
- Worldwide distribution network

Global Footprint

Core Competencies

Advanced Technology Global Distribution & Support

Technology/Product Development

- Elite team of Senior Chemists dedicated to discovering new technologies
- World-class, cost-effective coatings with long product life

Manufacturing/Distribution

- In-house specialty manufacturing for both large and small quantities
- Streamline supply-chain complexity and accelerate time-to-market
- Global just-in-time (JIT) distribution

Global Technical Support/Customer Care

- Experts in technical application consulting, ensuring high yields
- Access to state-of-the-art equipment for lab-scale feasibility studies
- Dedicated, responsive support to ensure a high-quality, consistent experience

Corporate Stewards of Environmental Sustainability & Safety

Quality Policy

- Pursue quality and safety in all endeavors
- Continuously improve our processes and products

Safety Policy

- Compliant with all local/international packaging & shipping regulations
- Participate in external surveillance and internal certification audits

Environmental Sustainability

- Manufacture environmentally friendly and energy efficient coatings
- Advocate bringing safe and innovative products to the marketplace

Core Business Initiatives

Our Vision

- To create value through customer partnerships
- Deliver uncompromising service
- Promote diversity and environmental responsibility

Our Mission

- To provide premium functional coating technologies
- Focus on improving product performance & durability
- Continual development of a new generation of coatings

Promoting Innovation Committed to Creativity

- Respect and value people and the planet
- Develop and support passionate, imaginative and enterprising thinking
- Inspire integrity and empower responsibility
- Engage and embrace a diverse and respectful workforce
- Lead by example, constantly identifying areas for improvement
- Continually create innovative global product solutions
- Community commitment, support for charitable organizations

Code of Business Conduct

Honesty, Respect, Confidentiality & Compliance

- Customer focused, dedicated to developing innovative high-quality products and services
- Confidentiality, non-disclosure of company, supplier and customer information (NDA's)
- Ethical acquisition and use of business intelligence
- Respect for third-party intellectual property
- Fair competition and trade practices
- Environmental conservation
- Health and safety protection

Business Environment Trends

Customer Needs – Competitive Advantage

Global Consistency

- Worldwide presence
- Brand support

Leading Edge Technology

- Continuous innovation
- Differentiated performance

Efficient Value Chain

- Fewer suppliers
- Cost-effective solutions
- Flexible, adaptive supply base
- Application expertise

Markets

Commercial, Industrial & Medical

38 YEARS OF PRODUCT INNOVATION

Markets Served

- Anti-Fog Film Applications
- Architectural & Building
- Automotive & Transit
- Aviation & Aerospace
- Bathroom Mirror & Shower Door
- Commercial Freezer Display Cases
 - PET Film & Industrial Sheet
- Electronics
- Greenhouse Anti-Fog Film
- Marine & Watercraft
- Medical & Safety
- Military & Security
- Specialty & Custom Applications
- Sunglass & Sports Eyewear

Anti-Fog Film Applications

Enhancing Visual Clarity & Personal Safety

Features

- Pre-cured coat-film delivers permanent Anti-Fog performance
- Water-washable hard coatings & films
- Highly durable, abrasion, scratch, chemical, mar, impact & UV resistance
- Exceptional optical clarity enables safer driving & navigation
- Weatherable, will not discolor with exposure to sunlight
- Compatible with adhesives & anti-reflective (AR) coatings
- Improves safety, encapsulating and reducing occurrence of shattering glass
- Easy to install, Anti-fog surface with water clear masking release liner protects the coated surface during installation
- Easy to maintain with household ammonia-free glass cleaners

Applications

- Automotive & Transit: windows, windshields & windscreens, instrument gauges
- Bathroom: Mirrors, windows, shower & steam room doors, saunas
- Commercial Freezer: Display & Delhi cases
- Electronics: HUD, LED & outdoor digital billboard displays

Innovative Energy Efficient Coatings & Film

Features

- Water-washable hard coatings & films
- Excellent resistance abrasion, scratch, chemical, fog, impact, mar & UV radiation
- Exceptional optical clarity & printable surface
- Premium weatherability & outdoor durability
- Tintable, compatible with adhesives, AR coatings & mirror treatments
- Improves safety, encapsulating & reducing occurrence of shattering glass

Applications

- Canopies, curtains/walls, domes
- Doors, enclosures, lights
- Panels, walkways, windows

High-Performance Solutions Improving Durability & Optical Clarity

Features

- Water-washable hard coatings & films
- Anti-Fog, abrasion, scratch & chemical resistance
- Exceptional optical clarity enables safer driving & navigation
- Premium weatherability, outdoor durability & UV protection
- Tintable, compatible with adhesives, AR coatings & mirror treatments
- Improves safety, encapsulating & reducing occurrence of shattering glass

Applications

- Automotive & Transit: windows, side mirrors & camera systems, windscreens & windshields, canopies, lights, sun/moon roofs, cockpit instrument clusters, panel displays & gauges
- Electronics: Head-up displays, GPS navigation systems, LED lighting

Automotive & Transit Components

Promoting Visual Clarity & Personal Safety

Features

- Water-washable hard coatings & films
- Anti-Fog, abrasion, scratch, chemical, impact & UV resistance
- Exceptional optical clarity enables safer driving & navigation
- Premium weatherability & outdoor durability
- Tintable, compatible with adhesives & AR coatings
- Improves safety, encapsulating & reducing occurrence of shattering glass

Applications

- Aviation: windows, windshields, canopies, lighting, cockpit instrument clusters, panel displays & gauges
- Electronics: Head-up displays, GPS navigation systems, LED lighting
- Eyewear Protection: Goggles, face shields, visors, space helmets

Bathroom Mirrors & Shower Doors

Convenience & Safety in Grooming routines

Features

- Water-washable hard coatings & coated films in 2 and 4 mil thickness
- Available with or without pressure sensitive application to flat glass and polycarbonate surfaces
- Anti-Fog, abrasion, scratch, chemical, impact & UV resistance
- Exceptional optical clarity enables safer grooming routines

Benefits

- Chemical resistant, can be cleaned with common household glass cleaners
- Permanent anti-fog treatment, a superior solution to temporary sprays and gels

Applications

- Residential and commercial bathroom shaving, vanity and powder mirrors
- Shower and steam room doors, saunas, and windows

Anti-Fog Film for Cooler & Freezer Display Cases

Features

- Superior permanent, water washable Anti-Fog performance
- Highly effective and long-lasting condensation control
- Durable even under humid and wet conditions
- Printable surface, can be digitally printed upon for advertising
- Highly durable, abrasion, scratch, mar, chemical & UV resistance

Benefits

- Easy to install & maintain with common household glass cleaners
- Optically clear, improving visual merchandising
- Supports environmental leadership and sustainability initiatives
 - **Optimizes efficiency, reducing energy consumption of freezer/compress or operations**

Maximizing the Durability & Performance of a Digital Lifestyle

Features

- Anti-Fog, abrasion, scratch, chemical, impact & mar resistance
- Excellent weatherability, outdoor durability & UV protection
- Exceptional optical clarity, extremely hydrophilic & hydrophobic for 100% visibility
- Printable film surface for branding & advertising
- Tintable, easy to clean & highly durable wear resistance
- PET Film compatible with adhesives

Coated Film Applications

- Cameras, GPS systems, smart phones, watches
- Computers, PCs, PDAs, notebooks, tablets
- Digital outdoor billboard signage & kiosks
- Electronic control panels, appliances & handled devices
- HUD, Flat Panel Display (FPD), LED, LCD (plasma screens), OLED
- TV monitors & touch panel screens

Anti-fog Coated Film Improves Plant Quality & Growth

Features

- Condensation can lead to plant damage, disease, scorching and reduced light transmission in a greenhouse or conservatory.
- Anti-fog coated film supports a healthier, more productive growing environment for plants
- Non-yellowing, optically clear, anti-fog controls condensation
- Provides superior water sheeting surface on greenhouses and conservatories
- Helps to control light transmission to enhance growth conditions
- Hydrophilic with anti-fog additives, enables water to migrate from the surface so water sheets off it, removing all traces of fog.

Benefits

- Condensation control helps nurture plant growth:
 - 15-50% more light transmission
 - Higher crop yields, quality, and commercial value
 - Earlier harvesting
 - Fewer diseases and reduced need for pesticides

Improving Visibility & Durability

Features

- Exceptional optical clarity for safer driving and navigation
- Premium weatherability and outdoor durability
- Excellent resistance to abrasion, chemicals, impact and UV radiation
- Hydrophilic, water sheeting anti-fog properties
- Primer-free adhesion to polycarbonate and acrylic substrates
- Tintable and printable surface

Applications

- Electronics: Panel and Heads-up Displays (HUD), LED lighting
- Hullside and boat deck windows, windshields, and windscreens
- Navigation: GPS navigation systems, cockpit instrument clusters and gauges

Permanent, Water-Washable Anti-Fog Solutions

Features

- Highly durable, abrasion, scratch, chemical, impact & UV resistance
- Permanent, water-washable Anti-Fog coatings & films
- Exceptional optical clarity, extremely hydrophilic & hydrophobic for 100% visibility
- Easy to clean, excellent wear resistance & outdoor durability
- Tintable, compatible with mirror & anti-reflective (AR) treatments
- Provides superior impact protection to bullet/shatter proof glass
- Improves safety, encapsulating & reducing occurrence of shattering glass
- Meets or exceeds safety standards for fog, abrasion & UV protection

Applications

- Automotive & Transit: Armored & security vehicle windshields, windows & doors
- Medical: Electronic display panels, surgical camera equipment, cardiovascular stents & vascular implant devices
- Protective Safety: Eyeglasses, face shields, masks, goggles & visors

Applications Where Visual Clarity is Imperative

Features

- Highly durable, abrasion, scratch, chemical, impact, mar & UV resistance
- Permanent, water-washable Anti-Fog coatings & films
- Exceptional optical clarity, extremely hydrophilic & hydrophobic for 100% visibility
- Easy to clean, excellent wear resistance & outdoor durability
- Tintable, compatible with mirror & AR treatments
- Provides superior impact protection to bullet/shatter proof glass
- Improves safety, encapsulating & reducing occurrence of shattering glass
- Meets or exceeds safety standards for fog, abrasion & UV protection

Applications

- Protective Safety: Eyeglasses, face shields, masks, goggles & visors
- Optical Equipment: Binoculars, rifle/night/laser scopes, surveillance cameras
- Aircraft: Canopies, cabin windows, cockpit instrument clusters
- Automotive & Transit: Military vehicle windshields, windows, instrument gauges & guidance systems

Superior Anti-Fog Performance

Features

- Highly durable, abrasion, scratch, chemical, impact, mar & UV resistance
- Permanent, water-washable Anti-Fog coatings & films
- Exceptional optical clarity, extremely hydrophilic & hydrophobic for 100% visibility
- Easy to clean, excellent wear resistance & outdoor durability
- Tintable, compatible with anti-reflective, mirror & metalizing treatments
- Meets or exceeds safety standards for fog, abrasion & UV protection

Applications

- For Application to tinted and clear substrates
 - Polycarbonate, polyamide (optical nylon), cast resins & acrylic
- Ophthalmic Lens Prescription Eyewear
- Protective & Safety Eyewear Devices (eye glasses, face shields, masks goggles & visors)
- Sunglass & Sports Eyewear (shields, masks, goggles, visors)

Simple to Complex Design & Production Assistance

- Support team to assist with initial production and design
- Expert sciences review requirements for the best product fit
- Ability to develop customized coating formulations
- Contract manufacturing services available for:
 - Appliqué shapes & perimeter adhesion
 - Custom die-cut lenses
 - Specialized laminations & metalized tinted films

Products

Anti-Fog Coatings, Film & Sheet, Formable, Specialty

38 YEARS OF PRODUCT INNOVATION

Product Solutions to Improve “YOUR” Brand

- Anti-Fog Product Suite
- Anti-Fog Film & Sheet Product Suite
- Anti-Fog PET Film Products
- Formable Coatings Product Suite
- Specialty & Custom Applications
- UV-Cure Anti-fog Coating

Innovative Product Solutions

- Anti-Fog
- Highly Abrasion & Scratch Resistant
- Chemical & Impact Resistant
- A/R (Anti-Reflective) Compatible
- Environmental Stability
- Flexible
- Hydrophilic & Hydrophobic
- Optical Clarity
- Thermal & UV-Cure Coatings
- Tintable
- Water Sheeting

Enhanced Product Performance & Quality

- Easily integrate into your existing operations, requires no-premixing
- Improves product performance, utility, appearance & quality
- Primer-free product offerings accelerate production
- Environmentally friendly options available
- Easy to use and highly stable products, can be stored at room temperatures
- Cost-effective long product service life reduces frequent tank change outs
- Multi-substrate compatible coatings streamline manufacturing, improving yields and profitability
- Access to FSICT's global tech support team for product validation & application

Multiple Applications

- Acrylic
- Aluminum & Other Non-Ferrous Metals
- Glass
- PET Film & Sheet
- Polyamide (Optical Nylon)
- Polycarbonate & Other Plastics

Multiple Coating Applications

- Cast
- Fabricated Plastics, Metal & Glass
- Forged & Non-Ferrous Metals
- Injection Molded
- Plastic Film & Sheet

Multiple Product Options

- Anti-Fog (Water-Washable)
- Formable
- Hard Coating
- Multi-Purpose
- Primer & Primer-Free
- Thermal & UV-Cure

Coating Application Methods

- **Dip**
 - Two-sided coating provides high throughput and the ability to maintain thickness control
 - Ideal for lenses and small parts
- **Flow**
 - Effective for large or uniquely shaped parts
 - Well suited for plastic sheeting and large shapes
- **Laminate**
- **Roll-to-Roll**
 - One-sided coating, ideal for UV-cure coatings
 - Ideal, continuous process for film and sheet
- **Self-Adhesive Film**
- **Spin**
 - One-sided coating features good thickness control
 - Perfect for lenses
- **Spray**
 - One-sided coating ideal for large or complex parts, offers high throughput
 - Applications include cell phone windows and casings

World-Class Anti-Fog Coatings

Applications

- Safety/Military/Sports/Sunglass Eyewear & Swim Goggles
- Industrial Sheet & PET Film for Freezers
- Instrument Gauges/Panels/Clusters

Features

- Single and double coat systems
- Primer, primer-free & water-based options
- Thermoformable and flexible
- Anti-fog (permanent), abrasion, impact & chemical resistant
- Compatibility with mirror coating treatments (AF-6114)
- Dip, flow, roll & spray coat compatible
- Thermal & UV-cure options

Anti-Fog Product Options

- Polysiloxane
 - Non-Water washable & water-washable
- Urethane
 - Permanent water-washable, EN-166/EN-168 compliant
 - Hydrophobic & hydrophilic
 - Superior water-sheeting properties

Anti-Fog Film & Sheet

Commercial, Industrial & Medical Applications

Markets Served

- Architectural & Building (Conservatory/Greenhouse, Mirrors)
- Automotive & Transit (Aerospace, Bus/Coach, Marine, Motorcycle, Rail)
- Commercial Freezer Display Cases
- Electronics (HUD, LED, Digital Billboard Displays)
- Medical & Safety

Features

- Film Applications: Glass, PET Film & Sheet, PC
- Anti-fog, abrasion, impact and chemical resistant
- Excellent formability

Available Options

- Permanent anti-fog coated film with or without pressure sensitive adhesive
- Anti-fog film for single-use, disposable products
- Standard rolls & customized appliques

Commercial & Industrial Applications

Markets Served

- Architectural Glazing
- Bathroom & Shower Mirrors
- Commercial Freezer & Delhi Display Cases
- Industrial Safety & Sports Visors, Eyewear & Masks
- Instrumental Crystal & Display Lenses

Features

- Film Applications: Glass, PET Film & Sheet, PC
- Permanent anti-fog with superior abrasion resistance
- Exceptional optical clarity & consistency

Available Options

- Permanent anti-fog coated film with or without pressure sensitive adhesive
- Anti-fog film for single-use, disposable products
- Standard rolls & customized appliqués

Formable Coating Product Suite

Exceptional Abrasion Resistance & Optical Clarity

Markets Served

- Automotive & Transit
- Architectural & Building
- Electronics
- Protective Eyewear

Features

- Outstanding Abrasion, Scratch & Chemical Resistance
- Formable, Flexible & Tintable
- Optically Clear, Permanent Anti-Fog Performance
- Will Not Discolor with Exposure to Sunlight
- Adhesion to PC, PMMA, CR-39®, Nylon & Other Plastics

Available Options

- Thermal Cure
- Single & Double Coat Systems
- Flow & Dip Coat Compatible

Performance Powered by Sustainable Chemistry

Markets Served

- Ophthalmic Eyewear
- Protective Eyewear: eyeglasses, face shields, masks, goggles and visors

Features

- Outstanding Abrasion, Chemical, Fog, and UV Resistance
- Exceptional optical clarity
- Water washable and water sheeting
- Primer-free adhesion to polycarbonate

Benefits

- Excellent stability and product durability, extended anti-fog service-life performance
- Eco-friendly, reduced VOC emissions
- Environmentally conscious UV light, energy efficient fast curing
- Good cosmetic appearance, transparent anti-fog, hydrophilic easy clean surface

Summary

38 YEARS OF PRODUCT INNOVATION

Strategic Development Partner

- Your strategic product development partner with a common focus on continuous quality improvement
- Dedicated to world-class operations & global customer relationships
- Committed to delivering uncompromising service that exceeds customer expectations
- Localized technical support teams backed by central R&D Department accelerates product development

Why Choose FSICT?

- Long and successful record of continuous growth through technical innovation
- Comprehensive portfolio of patented premium anti-fog coatings and films for multiple applications
- FSICT's innovative solutions improve the durability and performance of the world's most recognized products
- Extensive support and distribution network

Enhancing Product Durability

- Trusted by the World's Most Prestigious Brands
- From the 2012 Olympic Games swim goggles, to NASA Space Mission helmets, our premium coatings are used to enhance products where high performance is critical.
 - Best-in-class abrasion, chemical, fog, impact and scratch resistance
 - Exceptional optical clarity and environmental durability
- Global Manufacturing Capacity
 - Closely aligned to our global customers to deliver product, service, and support 24x7

What We Can Do Together is Boundless

Innovative Product Solutions

- Enhance your products' performance and image
- Leverage FSI's proprietary, patented technology
- Rely on consistent, certified products
- Access global JIT delivery and support
- Support partnership for your product:
 - Evaluation
 - Qualification
 - Implementation
 - Commercialization
 - Future development strategies
